Dear Dr. Lozinski:

I was happy to have your letter of February 9th and to hear from you and Mrs. Roland, to whom please return my fondest regards.

Unfortunately, I will not be able to visit you in Montreal in May, but I have a suggestion for you that might be even superior. That is Dr. Ronald Cape, Chairman of the Cetus Corporation and perhaps the leading scientist-entrepreneur in the field of genetic engineering. I have counted him a close personal friend for many years, as well as a business associate, and a member of Rockefeller University Council.

I also mention his name particularly as he is a native of Montreal, and for all I know, may already be known to you or some of your friends. He is a most interesting person in his own right and I am sure would sustain the standards of what appears to be a most exciting program on the part of your committee.

Yours sincerely,

Joshua Lederberg
